Complete Care for Mother and Baby in Your Maternity Journey

Pregnancy is a life-changing journey, and both mother and baby deserve the best care at every step. Our comprehensive maternity care program is designed to ensure a healthy pregnancy, reduce risks, and provide a safe delivery, while supporting breastfeeding from pregnancy through postpartum.

We offer personalized care through specialized clinics focused on maternal well-being, fetal health, and breastfeeding education and support throughout the journey.

- In partnership with the Rashid Center for Diabetes and Research, an Antenatal Diabetic Clinic providing optimal care for mothers with diabetes.
- High-Risk Pregnancy Clinic (e.g., Placenta disorders, Multiple pregnancies, Medical disorders complicating pregnancy, Intrauterine Growth Restriction (IUGR), Oligohydramnios and Polyhydramnios), located at Sheikh Medical City – Ajman, within the Obstetrics and Gynecology Clinic, Outpatient Department (OPD) Building.
- Fertility Clinic (OPD).

Our experienced team of obstetricians, midwives, nurses, and lactation consultants are dedicated to providing exceptional care and preparing you and your family for the arrival of your little one, including guidance on early bonding and breastfeeding.

Our services include:

- **Antenatal Education:** Guiding you through each stage of pregnancy, including preparation for breastfeeding.
- **Empowering Families:** Supporting informed decisions for a positive birth experience and successful breastfeeding.
- **Advanced Diagnostics:** Addressing complications with expert care.
- **Delivery & Neonatal Care:** Ensuring high-quality care for both mother and baby, with immediate and ongoing breastfeeding support after birth.

Neonatal Care and Support

Our neonatal services provide specialized, compassionate care for newborns who need extra medical support after birth.

- Neonatal Intensive Care Unit (NICU): Advanced care for babies born at 22 weeks gestation and beyond, staffed 24/7 by highly skilled physicians and neonatal healthcare professionals.
- Special Care Baby Unit (SCBU): Expert step-down care for infants who require monitoring but not intensive care.
- Neonatal Follow-Up Clinic: Ongoing specialized follow-up for high-risk infants after discharge.

Our dedicated team is committed to ensuring the safest, highest quality care for every baby and family.

The most beautiful journey of your life deserves a beautiful beginning.

Introducing Our Comprehensive and Transparent Maternity Care Packages
Designed with your well-being in mind, our maternity care packages offer exceptional care and peace of mind as you prepare to welcome your little one. We are dedicated to making this special journey as comfortable and stress-free as possible, ensuring that quality care always comes first.
